

INDEX

[Foreword](#)
[Preamble](#)
[Acknowledgement](#)
[Overview](#)
[Objective](#)
[Highlights](#)
[Definition](#)

SECTION 1

[Scope of the Review](#)

- Annexure 1.1 Details of different makes of units
Considered in the review
- Annexure 1.2. Details of different makes of units not
Considered for performance evaluation in
the review .

SECTION 2

[Overall performance & plant Load Factor](#)

SECTION 3

[Operating Availability](#)

SECTION 4

[Planned Maintenance](#)

- Annexure 4.1 Details of Planned Maintenance

SECTION 5

[Unscheduled \(Forced\) Outages](#)

- Annexure 5.1 Region wise break-up of frequency outages
and loss
- Annexure 5.2 Duration Pattern of forced outages
- Annexure 5.3 Details of Long duration forced outages

SECTION 6

[Capacity group wise and Make-wise performance](#)

- Annexure 6.1 Capacity group wise-make wise disposition of
thermal units.

SECTION 7

[Partial Unavailability and non-utilization of energy Due to system load variation.](#)

- Annexure 7.1 Region wise – cause wise partial loss of
generation due to equipment and auxiliaries.

- Annexure 7.2 Region wise cause wise partial loss of generation due to equipment & auxiliaries (with further cause)
- Annexure 7.3 Partial loss of generation major capacity group wise

SECTION 8

Effect of forced outages on generation Reliability.

- Annexure 8.1 Mean time between failure of Thermal units

SECTION 9

Coal supply to various power stations

- Annexure 9.1 Specific Coal Consumption of Thermal Power Station
- Annexure 9.2 Generation loss due to coal shortage
- Annexure 9.3 Station wise and mode wise break-up of Linkage & receipt of coal.
- Annexure 9.4 Station wise specific secondary fuel oil consumption

SECTION 10

Overview – Gas Turbine

SECTION 11

Auxiliary Power consumption in Thermal Power Stations

- Annexure 11.1 Station wise Auxiliary Power consumption in Thermal Power Station

SECTION 12

Station operation under disturbed grid/frequency conditions

- Annexure 12.1 Major Grid disturbances.
- Annexure 12.2-12.5 Regionwise frequency profile for.

SECTION 13

Efficiency of coal/lignite based stations.

SECTION 14

Environmental aspects in Power Sector

SECTION 15

Energy Conservation and Audit

SECTION 16

Renovation and Modernisation of Thermal Power Plants
